Special Instructions For All
STEER, MARKET & WEIGHT CLASS ANIMAL EXHIBITORS

Enter your animals only as shown within Department Premium Listing. All Class Weight Splits will be made only after all animals within that department have been weighed or the posted weigh-in time has past and scales are closed. Animals will be weighed only once. It is highly recommended that exhibitor be present during weigh-in. If exhibitor cannot be present he must appoint and empower an agent to act on his behalf and inform his Department Superintendent of such. In the case of animals being in both Open and Junior Shows the same weight class carries both shows. For example, an animal that is split into a weight class such as ***BARROW, HEAVY*** **IN THE <u>OPEN SHOW</u> WILL ALSO BE *BARROW, HEAVY* IN THE <u>JUNIOR SHOW</u>**. This rule applies to STEERS, LAMBS, HOGS OR GOATS. Class weight split determination is by computer.

In pair classes each exhibitor will make his own personal choice of animal pairings and give that choice to the Department Superintendent. The pair weight will be the total combined weight of the individuals as chosen by the exhibitor. Once paired there will be no changes in pairings. Pairings will remain the same in both Open and Junior Shows. Any animal brought to the show ring without a legible Weigh-In ID Number or with a Weigh-In ID Number that has been modified will not be allowed a premium.

The Department Superintendent shall oversee and supervise the weigh-in. His decision at the scale is final. Class Weight Splits will be made in Secretary's Office and shall be based on Open Show. Once all Weight Splits are completed, animal weight class assignments will be posted prior to show.
